Score represents 40 years Made in Holland, free trial chair

Score is the Dutch market leader in the field of ergonomic seating solutions and related accessories. Score's "Dutch Design" is an international sensation. Design, testing and production is all done in-house.. That explains Score's sheer power. The Score At Work concept originated from the idea that each individual is unique, resulting in a wide range of sizes and seat mechanisms. Create your own Score At Work. All parts are modular.

Would you like to try out the Score At Work for free? Enquire after the options for a 14-day free trial period with your local Score dealer.
